Full-stack developer and final-year Information Systems student at Maranatha Christian University (GPA 4.00/4.00, full academic scholarship). Currently building a company-wide ERP system from the ground up at Egafood Indonesia with Next.js, TypeScript, Golang and PostgreSQL. Comfortable owning a feature end-to-end schema design, REST API, frontend, and deployment with a year of teaching programming as an assistant lecturer. Open to internship, freelance, and full-time roles in Bandung, on-site or hybrid.

Work Experience

Egafood Indonesia - Cengkareng, Jakarta, Indonesia

Aug 2026 - Present

Full Stack Developer Intern

- Developed a company-wide Enterprise Resource Planning (ERP) system from the ground up, supporting the company's digital transformation from manual processes to an integrated system.
- Designed and developed full-stack applications and RESTful APIs using Next.js, React, TypeScript, Golang, and Gin Framework, connecting frontend applications with backend services and business logic.
- Developed multiple ERP modules, including Warehouse Management, HR Management, User Management, General Affairs, Sales & Distribution, and other business modules, while collaborating with stakeholders to translate business requirements into functional features.

PT Akselerasi Informasi Indonesia

Apr 2026 - Jul 2026

Web Development Intern

- Developed and maintained full-stack web applications, including front-end interfaces, back-end logic, and database integration
- Built and integrated RESTful APIs while ensuring seamless communication between system components
- Optimized application performance, conducted testing and debugging, and collaborated with teams to deliver scalable and user-friendly solutions

PT Comtronics Systems

Feb 2026 - Apr 2026

Information Technology Help Desk

- Provided technical support for hardware, software, and network issues, ensuring minimal downtime and smooth daily operations
- Installed, configured, and maintained IT systems while managing support tickets and documenting issues and solutions
- Collaborated with IT team to troubleshoot complex problems and deliver effective user support with strong communication

Maranatha Christian University - Bandung, Indonesia

Feb 2025 - Jul 2025

Assistant Lecturer of Project Oriented Programming

- Mentored students in Object-Oriented Programming (OOP), covering key concepts such as inheritance, polymorphism, encapsulation, and abstraction
- Developed and assessed weekly programming exercises to strengthen practical understanding of OOP principles
- Provided hands-on support in debugging and code optimization while assisting lecturers with course materials and evaluations

Maranatha Christian University - Bandung, Indonesia

Sep 2024 - Feb 2025

Assistant Lecturer of Basic Programming

- Assisted in teaching fundamental programming concepts, including variables, loops, conditionals, and functions
- Designed and evaluated weekly coding assignments to strengthen students' understanding and practical skills
- Guided students in debugging and improving code while supporting lecturers in preparing course materials and assessments

Government Tax Office - Cirebon, Indonesia

May 2023 - Aug 2023

Data Entry Intern

- Entered and organized taxpayer biodata in Microsoft Excel with high accuracy.
- Ensured confidentiality of sensitive personal and financial information.
- Verified physical documents to maintain completeness and correctness of records.
- Supported digital archiving for efficient data access and management.
