SUMMARY

Full-stack developer and final-year Information Systems student at Maranatha Christian University (GPA 4.00/4.00, full academic scholarship). Currently building a company-wide ERP system from the ground up at Egafood Indonesia with Next.js, TypeScript, Golang and PostgreSQL. Comfortable owning a feature end to end — schema design, REST API, frontend, and deployment — with a year of teaching programming as an assistant lecturer. Open to internship, freelance, and full-time roles in Bandung, on-site or hybrid.

TECHNICAL SKILLS

Languages TypeScript, JavaScript, Golang, PHP, Python, Java, SQL, HTML, CSS

Frontend React.js, Next.js, Vite, Tailwind CSS, responsive design

Backend Golang (Gin Framework), Laravel, RESTful API design & integration

Databases PostgreSQL, MySQL

Cloud & DevOps AWS (Cloud Architecting, Cloud Foundations, Data Engineering, ML Foundations), Git, GitHub, GitLab

Tools Postman, Figma, VS Code, XAMPP

Spoken Bahasa Indonesia (native), English

EXPERIENCE

Full-Stack Developer Intern — Egafood Indonesia

Aug 2026 – Present

Cengkareng, Jakarta · On-site

- Built a company-wide ERP system from the ground up, moving the company from manual processes to an integrated system.
- Developed five production modules: Warehouse Management, HR Management, User Management, General Affairs, and Sales & Distribution.
- Designed and integrated RESTful APIs connecting frontend, backend services, and business logic.
- Worked directly with stakeholders to turn business requirements into shipped features, including testing and debugging.
- Stack: Next.js, React, TypeScript, Golang, Gin Framework, PostgreSQL.

Web Development Intern — PT Akselerasi Informasi Indonesia (Accelworks)

Apr 2026 – Jul 2026

Bandung, Indonesia

- Developed and maintained full-stack web applications across frontend interfaces, server-side logic, and database integration.
- Built and integrated RESTful APIs, ensuring reliable communication between system components.
- Optimised performance, scalability, and security; ran testing and debugging cycles.
- Stack: TypeScript, Golang.

IT Help Desk Intern — PT Comtronics Systems (ICT Total Solution)

Feb 2026 – Apr 2026

Bandung, Indonesia

- Provided technical support for hardware, software, and network issues, managing tickets end to end and documenting solutions.
- Handled incident response and network monitoring using Zabbix, WhatsUp Gold, NetBox, and AKOJA ERP.

Assistant Lecturer, Object-Oriented Programming — Maranatha Christian University

Feb 2025 – Jul 2025

- Mentored students in inheritance, polymorphism, encapsulation, and abstraction.
- Designed and assessed weekly programming exercises and case studies.
- Guided students through debugging and code-quality improvement.

Assistant Lecturer, Basic Programming — Maranatha Christian University

Sep 2024 – Feb 2025

- Taught fundamentals: variables, loops, conditionals, and functions.
- Designed and evaluated weekly coding assignments; supported lecturers with course materials.

Data Entry Intern — Government Tax Office

May 2023 – Aug 2023

Cirebon, Indonesia

- Entered and organised taxpayer records in Microsoft Excel with high accuracy, handling confidential personal and financial data.
- Verified physical documents and supported digital archiving.

PROJECTS

NEXA — Smart City Command Center

React 19 · TypeScript · Vite

- Real-time urban monitoring dashboard: emergency reports, live CCTV findings, IoT device health (smart street lighting, sensors, controllers), and environmental alerts plotted on an interactive map with trend analytics.

- Tailwind CSS, Google Maps API, Chart.js. github.com/Royyy26/nexa-fe

Egafood ERP System

Next.js · Golang · PostgreSQL

- Company-wide ERP covering Warehouse, HR, User Management, General Affairs, and Sales & Distribution. Built from scratch during internship.

AKOJA ERP System

Next.js · TypeScript · PostgreSQL

- Enterprise Resource Planning application built collaboratively via GitLab, with a RESTful API backend and integrated database management. Live at erp.akoja.id

TripVerse — Online Travel Agent

PHP · MySQL · JavaScript

- Travel booking platform with a multi-role admin dashboard, booking management, authentication with password recovery, activity logging, and EN/ID localisation. github.com/Royyy26/TripVerse_Online_Travel_Agent

Customer Portal — Comtronics Systems

PHP · MySQL · JavaScript

- Customer-facing portal with ticket management, support request tracking, and IT helpdesk integration. github.com/Royyy26/Customer_Portal_Comtronics-Systems

EDUCATION

B.Sc. Information Systems — Maranatha Christian University

Aug 2023 – Jun 2027 (expected)

Bandung, Indonesia

- GPA 4.00 / 4.00 · Full Academic Scholarship (100% tuition coverage).
- Dean's List for 6 consecutive semesters (minimum GPA 3.85).
- 1st Place, Academic Festival (Video Competition); 3rd Place, Academic Festival (internal).
- Relevant coursework: Database & SQL, Python Programming, Decision Support Systems, Business Intelligence, Data Mining.

High School Diploma, Natural Science — SMAK Terang Bangsa

Jul 2020 – Apr 2023
